

CLAIMS

What is claimed is:

1. A portable truck tent, comprising:

a front seat frame assembly made of round metal tubing having at least one pole that receives

5 metal tubing;

a center seat frame assembly made of round metal tubing having at least one pole that receives metal tubing;

a rear seat frame assembly made of round metal tubing having at least one pole that receives metal tubing;

10 a shell assembly comprised of metal tubing that is received by the at least one pole of the front seat frame assembly, the center seat frame assembly, and the rear seat frame assembly;

tie down means for securing the shell assembly and the seat frame assembly;

a plurality of bench seats; and

a cover member having a door and at least one window.

15 2. The portable truck tent of claim 1, wherein the front seat frame assembly, center seat frame assembly, and rear seat frame assembly fit together to form a full seat frame assembly.

3. The portable truck tent of claim 1, wherein the plurality of bench seats have a plastic cover member.

20 4. The portable truck tent of claim 3, wherein the plurality of bench seats serve as storage devices.

5. The portable truck tent of claim 1, wherein the shell assembly has an aerodynamic nose for wind resistance.

6. The portable truck tent of claim 5, wherein the shell assembly serves as a storage apparatus.

7. The portable truck tent of claim 1, wherein the cover member is waterproof, durable, and lightweight for fuel efficiency.

5 8. The portable truck tent of claim 1, wherein the tie down means are at least one of clamps or turnbuckles that hook under at least one lip of a cargo box of a pickup truck.

9. A mobile truck tent for a pickup truck, comprising:

a front seat assembly, a center seat assembly, and a rear seat assembly;

a plurality of poles affixed to the front, center, and rear seat assemblies for receiving

10 metal tubing;

an aerodynamic shell assembly made of metal tubing is received by metal tubing;

two bench seats;

a plurality of clamps, threaded bolts, and turnbuckles for securely affixing the front, center, and rear seat assemblies, the aerodynamic shell, and the bench seats to a cargo box of the

15 pickup truck; and

a lightweight, durable, waterproof cover.

10. The mobile truck tent for a pickup truck of claim 9, wherein the front seat assembly, the center seat assembly, and the rear seat assembly are made of metal tubing.

11. The mobile truck tent for a pickup truck of claim 9, wherein the shell assembly is
20 a storage apparatus for hanging objects.

12. The mobile truck tent for a pickup truck of claim 9, wherein the two bench seats have seat covers and serve as storage beds.

13. The mobile truck tent for a pickup truck of claim 9, wherein the plurality of

clamps, threaded bolts, and turnbuckles allow for efficient attachment and removal of the mobile truck tent to and from the cargo box of the pickup truck.

14. The mobile truck tent for a pickup truck of claim 9, wherein the cover has at least one window and one door.

5 15. The mobile truck tent for a pickup truck of claim 14, wherein the at least one window and one door contain zippers and fastening means for opening and closing.
